

Jemena distribution area
Residential offer

DC POWER CO MARKET OFFER POWER

A ONE STOP SHOP FOR HOME RENEWABLES

DC Power Co is made for solar households. Our personalised service is designed to help Australians move to renewables in the home and get the most value out of their solar system when they do. We want to help you buy less, not more, electricity.

IMPORTANT INFORMATION FOR SOLAR HOUSEHOLDS

The estimated price in this document does not take into consideration payments for the export of solar power. On average, households with solar pay \$538 less each year for power than electricity customers that rely solely on the grid.*

*ACCC, 'Restoring electricity affordability and Australia's competitive advantage', Retail Electricity Pricing Inquiry—Final Report, June 2018

WHAT IS THE DC FEE?

We have no vested interest in getting you to use more electricity from the grid and no financial interest in selling you more. Unlike other power companies, our fee is not added to your usage rate, it's called out on your bill. This means for a flat \$11 (GST inc) per month you will receive:

- cost price electricity and the ability to sell your excess solar back to the grid
- our Solar Alert service, so you know when your solar isn't working
- advice on optimising your solar system to help reduce your bills
- advice on when solar, or a battery or upgrade, might be right for you.

CARBON OFFSET

The electricity you purchase from DC Power Co is 100% carbon neutral, at no extra cost to you.

VARIATION OF TARIFFS

If we vary our tariffs and charges for the sale of electricity to you under this contract, we'll give you notice as soon as reasonably practicable. This will usually be by email and no less than five business days in advance, or 10 business days in advance in Queensland if this variation is an increase.

OTHER FEES

In addition to the applicable prices, you may incur other fees. Information regarding fees is set out on our fees page dcpowerco.com.au/fees. Where a fee is to be applied, we will endeavour to inform you of the fee(s) and gain your consent before the service is provided.

NO LOCK-IN CONTRACTS

At DC Power Co we believe our customers should always have a choice. You have the right to join DC Power Co and the right to move away if you wish. We have no exit fees or lock-in contracts so if you decide that we're not right for you, you're free to leave whenever you wish (although we hope you won't).

FURTHER INFORMATION

For more information regarding DC Power Co and this offer see our full terms and conditions at dcpowerco.com.au/terms-and-conditions and our solar terms and conditions at dcpowerco.com.au/solar-terms-and-conditions. You can find frequently asked questions at dcpowerco.com.au/FAQs.

WHICH RATE APPLIES TO ME?

Anytime – single-rate tariffs:

These tariffs consist of a daily supply charge and per kWh electricity rate, which is the same at all times of the day.

Controlled load rates:

Rates for time switch controlled hot water services, space heaters and other dedicated loads, generally controlled between 11pm and 7am.

Time of use and flexible tariffs:

These tariffs consist of a daily supply charge, and different per kWh energy rate for peak times, off peak times and for flexible tariffs, "shoulder" times.

For more information on when these tariffs apply visit dcpowerco.com.au/help
